

Equity means that:

- **Equal supports** are provided to student who have **equal need**
 - E.g., All students need to feel welcome at school and should receive a personalized greeting each day.

AND

- **Different supports** are provided to students who have **different needs.**
 - E.g., A student who is fearful about entering school may need a personalized greeting and a brief supportive check-in about emotions and coping.
 - E.g., A student who has hearing impairments may need a visual greeting in addition to an auditory greeting.
 - E.g., A student whose family highly values child reverence to elders may benefit from greeting adults with a ‘bow’ rather than a ‘high five.’
